## Last Responsible Moment

Olav Maassen (Xebia)  
olav.maassen@xebia.com  
@olavmaassen

Let's play a game

Goal:  
To deliver as quickly as possible

### Teams

- Form teams
- Decide on name

Who will complete task A and task B first?

### Task A

Dear Team,

Construct a six sided random number generator. Something like a dice like thingy.

Each member of the team should take it in turns to use it until everyone on the team has rolled a "Double 6".

### Task B

Dear Team,

Construct a four sided random number generator. Something like a dice like thingy.

Each member of the team should take it in turns to use it until everyone on the team has rolled a "Double 6".

## Last Responsible Moment

- Learn as much as you can before making irreversible decisions
- Don't make decisions that will be expensive to change before their time
- Don't make them after their time!

From <http://nospartaduck.com>

Optimal Last Responsible Moment

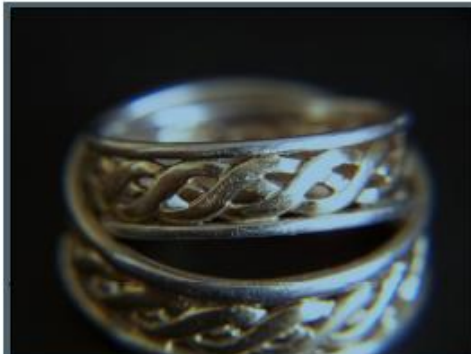

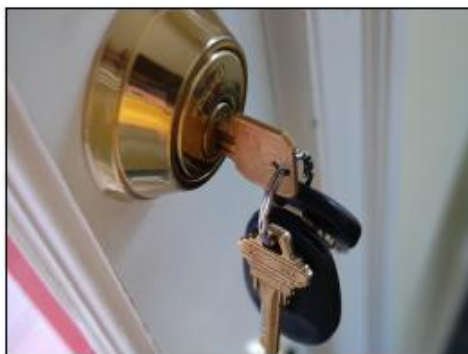

When is something a commitment?

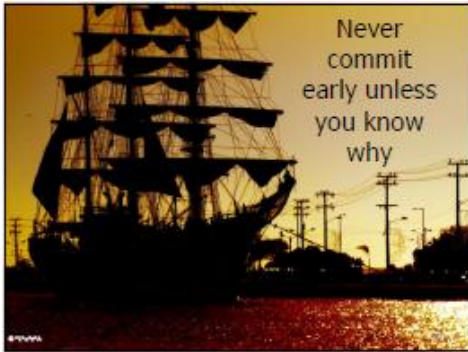

When is something optional?

A Month

A Day

An Hour

A Minute

A Second
